

Recitation

As part of the long tradition of internalizing literature through memorization and recitation, each of you will memorize and recite (to one of your instructors in an individual meeting) all or a portion of one of the works assigned in this course. (There will be four such recitation assignments over the course of the year.)

The length requirement is 14-28 lines of poetry or prose. (In the case of prose, this will be the number of lines as printed in your edition.)

You will need to bring your edition of the work to your recitation for your instructor to check your recitation against. Your recitation will be evaluated on its verbal accuracy.
